

WORLD SCIENCE DAY

Did you know?

The collective noun for a group of pandas is an "embarrassment."

This term was coined due to their shy and solitary nature.

Did you know?

Despite the vast differences in appearance, about 50% of human DNA is similar to that of bananas. This similarity is due to shared evolutionary history.

Did you know?

On the exoplanet HD 189733b,
located about 63 light-years away
from Earth, due to extremely high
winds, it's believed that it
rains glass, sideways!
